

Faculty of Performing and Expressive Arts

Our Philosophy

The Arts and Physical education are an indispensable part of a total education, necessary to maintain a healthy and balanced lifestyle. The Arts and Physical Education are fundamental to human growth and provide students with intellectual, creative, emotional and corporal experiences that allow them to relate to the other core subjects.

The Arts serve to build self-confidence through personal expression and communication; encouraging students to use their imagination, flexibility and creativity in problem solving. Physical Education serves to develop students physically, mentally, emotionally and socially.

These important areas of the curriculum provide students with the knowledge, skills and processes to be aesthetically, emotionally and physically educated. They inculcate responsibility and empathy as well as skills such as aesthetic appreciation, creativity, patience, concentration, teamwork and sportsmanship.

Our Aims

- To create a learning environment that inspires and fosters excellence in the performing and expressive arts, we aim:
- to provide comprehensive arts and sports experiences;
- to empower all students with the relevant knowledge and skills;
- to enrich their understanding of themselves and the world;
- to embrace the potential of the arts and physical education for communication, social cohesion, celebration and creativity

Our Approach

- We see the Arts and Physical education as a continuous learning experience in life. Our approach emphasizes the need to exercise empathy and respect for the arts and physical activities from global cultures.
- We offer a curriculum which recognizes individual abilities, promotes diversity and encourages community involvement.
- Opportunities are provided for students to appreciate, analyse, reflect, create and perform in the arts and sports through traditional and contemporary approaches.
- Learning & appreciation of the arts and sports take place through diversified, collaborative and interdisciplinary exposure, experience and excursion to develop our students holistically. There are regular opportunities to observe and work with peers from other schools as well as with tertiary students and professional practitioners.
