

Year 4: Foundation International Baccalaureate (FIB) Programme

The Year 4 Foundation IB programme is a one year course aimed at preparing competent English language learners for the International Baccalaureate Diploma Programme (IBDP) in the following two years.

Students do not sit the external IGCSE or O Level examinations at the end of the year but instead focus on building a strong academic foundation as preparation for the demanding Diploma years. They do, however, sit the school’s internal examinations and must pass the end of year examinations in order to progress to the IBDP.

Students are encouraged to join the FIB course at the beginning of the academic year in January in order to gain the most from the course. Some spaces are reserved for students to start in Term 2. Subject to spaces being available, students who have completed the IGCSE or similar programme may enrol for the second half of the year as further preparation for the IB Diploma the following year.

ESOL students from a non-English speaking background with weaker academic English skills should apply for the Pre-IB Bridging programme. This is also a one year Year 4 programme but it focuses on developing English language skills in addition to developing competency in other subjects. Pre-IB students have usually completed a four year middle school programme whereas FIB students use the FIB course to complete their fourth year.

Subjects Studied	Periods per Week	Comments
English	3	
Mathematics	4	
Science	6	Two of: Chemistry, Biology, Physics
Global Studies	3	
Economics	3	
Creative Arts	2	
PE	1	
Innovation, Inquiry & Entrepreneurship (IIE)	3	
	25	

All students take a common course as per the table above. Students take two out of three Sciences.

This programme enables students to choose from a range of subjects for the IB Diploma. IB Diploma Students must take six subjects which include an English course, a second language, Mathematics, a Humanities subject and a Science subject. The sixth subject can be either a second Humanities, a second Science or Visual Arts, Music or Theatre. Three of the subjects are taken at an advanced Higher Level and three at Standard Level. The IB Core – the Extended Essay, Theory of Knowledge, and the Creativity, Activity and Service (CAS) components complete the course of study. For more detailed information please see www.ibo.org.

Entry Requirements

- Students completing Year 3 (Grade 9) may apply. Applicant will be expected to write an admission test covering English, Maths & Science. Applicant must elect two of the three Sciences to be tested. The English & Maths tests are in one session whereas the Science test will be in the next session. There will also be an interview.
- FIB students are expected to sit and pass in the school’s interview and progression examination at the end of the year. Only successful students will be promoted into the IB Diploma.
- Students who have passed the IGCSE or O Level examinations are guaranteed entry to the IB programme the following year, whereas the other FIB students must pass the school’s end of year internal examinations.

FIB Costs

- Fees outlined per Fee Schedule.
