

IGCSE – Top in the World!

Three ACS (International) students have just been awarded an Outstanding Cambridge Learner Award for coming Top in the World in the 2019 November IGCSE Additional Mathematics and International Mathematics examinations. The announcement of these awards was unfortunately delayed this year because of COVID-19 issues.

Our congratulations to Wu Yanyu and Wei Yu on their 100% scores and attaining the Best in the World award for Additional Mathematics, and to Rupert Chia on gaining the Best in the World award for International Mathematics.

Two other ACS (International) students were only one mark behind in each of these Mathematics subjects.

Being Best in the World in a subject is an outstanding effort and the whole school is delighted in congratulating these students on their supreme achievements which are the result of fine ability and outstanding and sustained effort, particularly over the past two years. We also congratulate their teachers, Mrs Lim-Tan Lay Pian, Ms Jasmine Teo and Mrs Beena George, on their extensive skills and hard work.

ACS (International) students have achieved 23 Top in the World awards in 10 of the past 11 years.
