

26 January 2021

Dear Parents and Guardians,

ACS (International) partners with the Council of International Schools (CIS) as part of our continual school improvement process. We have invited their evaluation team to our school in order for them to provide feedback on the programmes we run at ACS (International).

From Monday 1 February to Friday 5 February, their team will be visiting the school virtually. Normally the team would visit physically, but due to border restrictions the visit will be conducted virtually. As part of this process our staff will be live streaming various aspects of the school to the team throughout the week. This includes classroom activities and drop off and pick up times. This live footage will be shown securely to CIS with no recordings being made.

All data will be processed in accordance with the school's data protection policies, CIS protocols, which are in line with the General Data Protection Regulation (GDPR) and the Personal Data Protection Act 2012.

If you have any questions please about this process please feel free to contact the school.

Yours sincerely,

Gavin Kinch  
Principal
