Panel Discussion: ChatGPT and Generative AI

Wednesday 8 March, 7:00pm – Oldham Chapel

Dear Parents and Guardians,

There has been a lot of interest in ChatGPT and the impact that it, and similar technologies, may have on us in the future. In the education industry there have been a range of responses to ChatGPT, including total bans through to fully embracing the technology.

ACS (International) is excited to invite you to a Panel Discussion on the topic of *ChatGPT and generative AI: How these technologies may impact our future*. I will act as the Moderator for the discussion, with the panel members being:

Mr Keith Carter

*Partner, KBC Global Partners
Author of "Actionable Intelligence"
ACS (International) parent*

Mr Uli Hitzal

*Founder, Electric Minds
Author of "Bedtime Stories from an AI"*

Mr Caleb Tse

*Assistant Professor of Marketing
Nanyang Business School, NTU.*

Mr Kwan Park

*Pastor of Discipleship
International Baptist Church of Singapore.*

The Panel will discuss topics such as:

- What is chatGPT?
- What is generative AI?
- How can these technologies be used?
- What are the concerns?
- How may these technologies transform our future?
- What may be the implications for the education sector?

There will also be an opportunity for the audience to ask the panel questions.

This is an event only for members of the ACS (International) school community, with no need to register. It is anticipated that the event will close at 8:30pm. Parking will be limited for the event, so it is best to travel to the school via an alternative way.

Please click [here](#) to see the promotional poster for the event.

Yours sincerely,

Gavin Kinch
Principal
