Background

ACS (International) is one of three Singaporean international schools able to enrol both local and international students. The student roll of approximately 1000 includes 50% of students who come from Singapore with the rest from 30 different countries around the world. Approximately 60% of the staff are Singaporean and Permanent Residents, with the rest from United Kingdom, Europe, United States, Canada, Australia, New Zealand and Asia.

ACS (International) is an independent, co-educational international secondary school located in Singapore catering for students from Year 1 (Grade 7) to Year 6 (Grade 12). Students sit the Cambridge IGCSE examinations in Years 3 and 4 (Grades 9 and 10) then progress to the IB Diploma Programme in Years 5 and 6 (Grades 11 and 12). Our aim is to develop future leaders with an international vision, moral character, intellectual ability and deep compassion for humanity based upon Christian belief and values.

Job Shadowing Scheme

Job shadowing Scheme was introduced to students in 2009. This program is offered to Year 5 and Year 6 IB Diploma Programme (IBDP) students; our students have the opportunity to work alongside and gain experience of the role for their future careers and gain an insight into that particular profession and industry. This is a unique and meaningful opportunity to provide informed decisions for students' future career(s).

These students are generally 17 to 19 years old who are at the age of being able to appreciate and meaningfully engage with hands-on experience the program offers.

Period of Job Shadowing:

March, June, September and December (school holidays)

Duration: 3-5 days

"As an aspiring engineer, job shadowing has allowed me to have a taste of my future. It was an eye-opening experience that fills my holiday with joy and adventure. I would like to do it twice if I can."

Andy Ferdinand (6THO)
"Offshore Construction Specialists (OCS)"

"I benefitted from the job shadowing program in many, many ways. In addition to acquiring some basic technical knowledge in automation, I also learned about the challenges and obstacles that await me in the future. This unique experience had further consolidated my intention to pursue a career in engineering and I can't wait to graduate!"

Antony Yang Tzu Hsien (6OLD)
"Terasaki Electric Co (F.E.) Pte Ltd"

"**Lee & Lee (Dental Surgeons)** had an abundance of experienced dentists.

In just three days I had managed to fully grasp what it is like to be a dentist from this job shadowing programme. By observing the dentist practice on his patients as well as interacting with him. I had learnt what the day in the life of a dentist would entail. Dentists Dr Choo and Dr Park had both given me a good insight of why I should pick dentistry as a future profession and how it benefits not only me but a wider community as well.

I now fully strive to be a dentist to help people as much as I can in terms of their oral health and well-being."

"Throughout the fulfilling five days of job shadowing at **FundedHere**, I learned various specific skills or knowledge required to work in the finance industry. This helped me to understand how suitable I am for the career and what skills I'm lacking, so this would benefit me in choosing my future university and career pathways.

I would definitely recommend everyone to take part in this programme, especially those who are not sure about their future plans."

"Despite it being online, the job shadowing with **Allen and Gledhill LLP** was very insightful and interesting. The supervisor was friendly and open, encouraging me to ask any questions regarding the job shadowing stint. I was definitely enlightened and got to know more about the life of a lawyer and what is expected. I found out that law as a job is much more complex and has many aspects, and the work itself is quite challenging. However, the passion of the lawyers drives them to carry out their work on time despite difficulties faced, and I found that aspect admirable. I was able to hone my analytical and writing skills and was given more insight into a lawyer's life."

"I thoroughly enjoyed my experience at **EBOS SG**, where I attended a job shadowing programme for five days. During this programme, I wrote articles and proposals about accounting, finance as well as marketing. The people in charge of the programme at EBOS SG were extremely accommodating and welcoming, guiding me and my friends while we performed our tasks. Being able to have first-hand experience of working at an accountancy firm provided many insights into the various occupations within the finance industry.

This experience helped me understand what kind of job I would like to do in the future and provided me with an idea of how technology will change the business industry when I enter the workforce."

- **Mailing of your application (hardcopy) / certificates is your own responsibility.** You may want to use the Speed Post and Registered Mail Singpost services. Check with the Singpost on the rates and the delivery times. The University Advisor or School **is not** responsible for mailing your certificates or applications.
- You may want to **make photocopies of your original certificates** i.e. IGCSE certificate or equivalent certificate. Only send '**Certified True Copies**' to Institutions.
- Make sure you put in your request early for getting extra copies of the School Transcript. The transcript should be sealed with an ACS (International) School envelope. The School Transcript is normally requested by the US Universities as it is considered as part of the whole application. Due to the mailing system, sometimes, the transcript may go missing in the process. Therefore, if the University requests for it again, please have a spare copy handy so that it can be sent out again.

Thank you
